ACKNOWLEDGEMENT

It is indeed a great pleasure to express my thanks and gratitude to all those who helped me. No serious and lasting achievement or success one can ever achieve without the help of friendly guidance and co-operation of so many people involved in the work.

I am very thankful to my guide **Dr. Sunil Bajeja,** the person who makes me to follow the right steps during a project work. I express my deep sense of gratitude to him for his guidance, suggestions and expertise at every stage. A part from that his valuable and expertise suggestion during documentation of my report indeed help me a lot.

Thanks to my friends and colleagues who have been a source of inspiration and motivation that helped to me during my project work.

I would heartily thankful to my Dean **Dr. R. Sridaran** and Head of Department **Dr. Sunil Bajeja** to give me an opportunity to work over this report and for their end-less and great support. And to all other people who directly or indirectly supported and help me to fulfil my task.

Chapter 1

SYNOPSIS

Abhivyakti is a website, which provides self-publishing and reading platform to the writers and the readers. Its features and functionality are provided in 3 languages: Gujarati, Hindi and English. It allows users to publish and read original works such as stories, poetries, articles, essays, etc… It also allows readers to rate and to comment content posted by the others.

Through the Gmail Account multiple users can communicate with this website and they can share their ideas, greetings, suggestions with this website and the other users on this platform. This website provides good interface and connectivity to users. It is user friendly website and more convenient for the users.

Chapter 2

PREAMBLE

2.1 Project Description:

In this project, I have used PHP, HTML, CSS, JQUERY, AJAX and JAVA Script for creating attractive, more efficient, and extra ordinary website, and also I have used MySQL to create and manage the database. For creating logo and images, I have used Photoshop.

This project is designed with the goal of making the existing site more informative, reliable and secure for that users have to login in this site with valid Gmail ID and Password, then and then users are able to use this site for the various purposes such as creating profile, publishing contents, reading contents, participating in various competitions, etc…

I do my best to protect user's privacy details and I make sure that I will not share any personally identifiable information with any third party. And the data transactions on the website are also secured.

In short, this is a great opportunity for transcript and a great platform for all people, from the perspective of writing to the world of reading-writing.

2.2 Modules And Description:

There are mainly 6 modules which are included in this project: Home, Write, Search, Categories, Update and Profile.

1. **Home:**

   It is a front layout of the website, which is connected with all the pages of different modules.

2. **Write:**

   Writer can publish any content with the help of this module by following easy steps.

3. **Search:**

   To find any content or author's or poet's name, this module is used.

4. **Categories:**

   This module provides many classifications of the different contents: Suspense and Thriller, Romantic, Horror, Funny, Spiritual, Social, etc… Stories, Science Fiction, Child Literature, Woman Special, Article, Poems, Film and Music, Biography, Travel and Tourism, Essay, and Other Stories, etc… Due to these classifications, readers can easily get any require content.

5. **Update:**

   This module is used to display notifications and messages.

6. **Profile:**

   This module is created to set personal information, maintain library, to keep the record of followers and following, to know the total reviews and rating.

...Where The Thoughts Take The Form Of The Words...
Abhivyakti
Is A Great Opportunity
for transcript and a great platform for all people, from the perspective of writing to the world of reading-writing. Language is an identity and the fundamental mode to express; a concept with which Abhivyakti is well versed. A platform's real value lies in providing mobility and a superior user's experience to all and this is one of the foremost missions (vision) of Abhivyakti.
Stories have stood the test of time; but the specialty of narrating is available in each language. In English, it comes in numerous names; for example, story, tale, legend, adventure; in Hindi, it would be called katha, kahani, dastan; in Gujarati, it would be called varta, etc, yet the central idea being that regardless of the language the specialty of narrating is endless.
Hundreds of years back individuals would regularly cluster up around the fire and sing tunes, describe legends. In the twentieth Century, in the origin of adventures; for example, Mahabharata, Shakuntala, Panchatantra and many; narrating was passing on, but with the changing flow of time; its importance began to diminish and now it is about to disappoard.
Revolutionizing
The Art Of Story-Telling
Abhivyakti is a platform which brings readers, writers and their stories together. From the next door neighbour reading stories in the afternoon, to the funny college kid downstairs, millions of people around you are using Abhivyakti to discover, express and share their stories in the language they love.
Abhivyakti means to express something. To convey the abstract thoughts and sensations through the basis of language and grammar till others. Abhivyakti is a self-publishing website; it is a platform that brings together writers and readers in a virtual community that instigates a dialogue on literature in any language. It is the 21st century's answer to the age-old tradition of storytelling but now instead of being; huddled up near a fire, readers and writers perch with their laptop, desktop or mobile screens.
Abhivyakti is a website, which provides self-publishing and reading platform to the writers and the readers. Its features and functionality are provided in 3 languages: Gujarati, Hindi and English. It allows users to publish and read original works such as stories, poetries, articles, essays, etc... It is the online platform in India that caters to literature in regional languages.
